

In the Claims

1. (Presently Amended) A packaged tablet, which tablet has a matrix consisting of at least 55% of a cellulose ether, ~~characterized in that wherein~~ the tablet has a water activity of at most 0.6 and is packaged such as to delay moisture uptake by the tablet.
2. (Presently Amended) The packaged tablet according to claim 1, ~~characterized in that wherein~~ the tablet has a water activity of less than 0.55.
3. (Presently Amended) A packaged tablet, which tablet has a matrix consisting of at least 55% of a cellulose ether, ~~characterized in that wherein~~ the tablet has a water content of less than 9 % w/w and is packaged such as to delay moisture uptake by the tablet.
4. (Presently Amended) The packaged tablet according to ~~any one of claim 1-3~~ claim 1, ~~characterized in that wherein~~ the matrix consists of more than 65% of a cellulose ether.

5. (Presently Amended) The packaged tablet according to claim 4, -
~~characterized in that wherein~~ the cellulose ether is
hydroxypropyl methylcellulose.

6. (Presently Amended) The packaged tablet according to ~~any one~~
~~of claims 1-5~~ claim 1, ~~characterized in that wherein~~ the tablet
comprises gepirone HCl in an amount in the range of from 20 - 85
ma.

7. (New) The packaged tablet according to claim 3, wherein the
matrix consists of more than 65% of a cellulose ether.

8. (New) The packaged tablet according to claim 3, wherein the
tablet comprises gepirone HCl in an amount in the range of from
20 - 85 ma.

9. (New) The packaged tablet according to claim 1, wherein the
tablet comprises gepirone HCl in an amount in the range of from
20 - 85 ma and the matrix consists of more than 65% of a
cellulose ether.

10. (New) The packaged tablet according to claim 9, wherein the
cellulose ether is hydroxypropyl methylcellulose.
